THE CATTY SHACK RANCH WILDLIFE SANCTUARY

Type: ROUTINE INSPECTION

Date: Sep-18-2014

3.127

FACILITIES, OUTDOOR.

There is standing water and wet muddy conditions throughout enclosure 17 housing 5 tigers which indicates inadequate drainage. There is wet mud and water surrounding the 3 feeding platforms and around the shelter. The tigers are unable to easily access their shelter and food without going through the puddles or soggy muddy areas. A suitable method shall be provided to rapidly eliminate excess water.
Correct by October 25, 2014.

3.131 (c)

SANITATION.

The supply storage area, which is in close proximity to the food storage area is disorganized and cluttered. There are tools, supplies and chemical products piled throughout the front and rear areas. Messy, unkept disorganized areas may allow for accidental contamination of food and/or harbor vermin and insects. Vermin and insect pests may harbor disease which is a hazard to the animals. Premises (buildings and grounds) shall be kept clean and in good repair to protect the safety and well-being of the animals.
Correct by October 10, 2014.

Exit interview conducted with Executive Director.
